GENESIS

*"We must believe that we are gifted for something,
and that this thing, at whatever cost, must be attained."
- Marie Curie*

Research is a systematic process of investigation aimed at uncovering new knowledge or adding to existing understanding. It involves identifying a question or problem, reviewing relevant literature, formulating hypotheses, building theories and models, collecting, and analyzing data, and drawing conclusions. Research can span diverse fields like sciences, humanities, and business, each employing different methodologies. Beyond answering specific questions, it drives advancements in technology, medicine, and education and helps us understand complex issues. It is a journey led by curiosity and systematic inquiry, providing intellectual rewards, and significantly contributing to human knowledge and societal progress.

About the Conference

Welcome to our interdisciplinary research conference, a platform for exploring the convergence of Business Management, Economics, Computer Science, Information Technology, and allied streams. Participants will delve into these fields' latest findings, trends, and challenges. Here, business strategies meet economic theories, and digital transformations intersect with behavioral sciences, fostering a rich dialogue on how these domains collectively shape our world. The Conference will be helpful for everyone interested in research – from industry leaders to academic experts who gather to exchange ideas, inspire innovation, and ignite collaboration. As we navigate the intersections of these disciplines, we will unlock new insights, enhance our understanding, and redefine the paradigms for future research and practice. Let us begin this exciting journey of discovery!

The complete event will be broadcasted on an open social media platform, likely to be YouTube.

Paper presenters will present their papers using Zoom Meeting.

Please note that a mere presentation of the paper does not guarantee publication. Papers that do not meet the quality and other requirements of the book will not be published. The book is likely to be released by the end of June 2024, provided all the presenters submit their revised manuscript on time.
- Prefix and Salutations (such as Dr., Prof., Mr., Mrs. etc.) are not used in our international conference certificates and academic publications to provide a level playing field in the process of dissemination of research.
- Any legal disputes are subject to the jurisdiction of Visakhapatnam, Andhra Pradesh, India, within 90 days of the Conference's completion.

Sponsorships

Our conference is a low-budget conference and aims to encourage research, research writing, and presenting research work. The conference is seeking generous sponsors by way of contributions to present research awards. Several sponsorship levels are available to accommodate your budget and preferences. We welcome sponsorship in the form of cash awards or relevant research-related gifts to be given at the end of the conference. By sponsoring our awards, you can:

- Support the next generation of researchers: Your cash reward or gift will directly incentivize and recognize outstanding achievements in research.
 - Gain valuable brand exposure: Your logo and company information will be prominently displayed on conference materials, websites, and social media platforms, reaching a wide audience of researchers and industry professionals.
 - Align yourself with cutting-edge research: Your association with the conference strengthens your commitment to innovation and progress. For more details on this, please email to pbmebc@gmail.com
